

Upcoming Continuing Education Seminars with Jeffrey Yuen

Course Topic: HUN & PO in CHINESE MEDICINE

Presenter: Jeffrey Yuen comes from two Daoist traditions and his training in Chinese medicine comes from Daoist priest Yu Wen and Gong Song-Liu. Yuen comes directly from a Daoist lineage and trained under the Daoist priest, Yuen, learning among other healing arts, Chinese herbal medicine. Yuen was invited by NCCAOM to be among a group of prominent practitioners, to write and review questions during the development of the NCCAOM herbal exam and served on their Finalization Committee

Program Description: Intrinsic with the study of Classical Chinese medicine is the discussion of the *Ling hun* and *Ling po*. While the *hun* and *po* are often translated as the ethereal and corporeal soul and are said to reside in the Liver and Lungs respectively, there is little else that has been taught about these entities. Usually relegated to Chinese spiritual or religious cultural aspects, students of Chinese medicine rarely get the opportunity to understand their role in clinical practice, even though there is some inference to their significance in acupuncture point names. Some of their attributes have been the *hun* and its relationship to sleep, memory, and dreams, while the *po* has been implicated in fertility, death and dying, and even qigong. In addition, as “spiritual” components of the *Ling-soul*, they are intricately related to the *Shen*-spirit and clinically implicated with psychological and mental illnesses. This seminar will explore, examine, and discuss the different aspects of the *hun* and *po* from the influence of Daoism on Chinese medicine. More importantly, the clinical application of utilizing the revelations invoked from accessing the *hun* and *po* for therapeutic treatment of learning disabilities, loss of memory, depression, insomnia, and other psycho-mental issues.
